## PROJECTS

### ONLINE VOTING MANAGEMENT SYSTEM

Languages :- HTML, CSS, Javascript, PHP

Database :- ORACLE, MYSQL

- Online Voting Management System” is an online voting technique.
- In this system people who have citizenship of India and whose age is above 18 years of any person can give his/her vote online without going to any polling booth.
- Check to ensure that the members who are registered are the only ones to vote. Cases of “Dead People” voting are also minimized.

### BLOOD BANK MANAGEMENT SYSTEM

Languages :- HTML, CSS, Javascript, PHP

Database :- ORACLE, MYSQL

- The software system is an online blood bank management system that helps in managing various blood bank operations effectively.
- It is a central system which contains various blood deposits available with associated details.
- These details include blood type, blood volume, Donor details, storage and date of storage, blood requests.
- This system also includes the delivery of blood as per the requirement of particular hospital or patients.
